NOTICE TO CONTRACTORS AND BUILDERS.

Important Discoveries and New Arrangements!

THE subscriber has discovered upon his premises a splendid

QUARRY OF FREESTONE,

which promises to surpass anything yet found in the state, as well as add to the many already developed resources of our city,

A Beautiful, Cheap and Durable Building Material,

He has made arrangements to work this, together with the justly celebrated

Monterey Lime Stone Quarry,

on a scale equal to the demands of our enterprising citizens, and in order to accommodate his numerous customers, he has made arrangements to keep constantly on hand a large supply of

ATHENS MARBLE

(or Chicago stone.) He is now fitting up extensive saw and scouring mills, and other machinery necessary for working the same, at a great reduction from former prices.

He also wishes to call attention to the fact that sound cutting or dimension stone can only be found at great distances from the surface, and that the Monterey Quarry is the only one in this county that has been worked far enough to reach those formations that are imperishable when exposed to the action of air and frost.

He is also supplying his Quarry with Derricks to facilitate the handling and loading large stone, and is fitting up expensive wagons, carts and trucks, rigged with the most approved appliances for moving and delivering dimension stone of any size, from two to thirty feet square, and from six to twenty inches thick, or any required length up to one hundred feet, to any part of the city or on board of the cars.

He is prepared to furnish

Cut Stone

of every description,

PLAIN, MOULDED, CARVED OR POLISHED FLAGGING

of any required dimension.

Curbing, Paving, Ruble and Coursing

stone of the best quality in the state, all of which will be delivered at his Quarries or any part of the city, to suit purchasers.

In conclusion, he begs to assure the public that from the superior quality of his materials, and facilities for furnishing, he can and will make it to their interests to patronize the Monterey Quarries.

☞ All Orders from the city or country will be promptly attended to.

THE above are *First Class, justly popular, and prompt paying* companies. They invite investigation into their condition and solicit business entirely upon their real merits. In point of solvency and reliability and honorable dealing, they have but *few equals, and no superiors.* They are founded upon the very best securities in the world—first class bonds and mortgages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the fluctuations of the market, and liable, *in times of panic,* as the experience of the past teaches, to become almost, if not entirely, valueless. And while there are Companies entering the field of competition, well calculated to mislead by publishing *partial and one-sided* statements of their condition, and without a cash surplus on hand sufficient to reinsure their outstanding risks, the above named companies always have and keep over and above their capital *twice* the amount, and in most instances *four* times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for liberal patronage.

Policies issued without delay, and farms risks for a series of years taken at less rates than can be done by Mutual Companies, and a *certainty* given instead of an *uncertainty.* All losses promptly adjusted and paid.

New York Life Insurance Company,

It will not peel off, and cannot be blistered by heat.

It is beautifully white, and will not turn yellow from being in darkness.

One Pound will go as far as *two* pounds of lead paint, and costs but *one-half* the money.

For ceiling walls and fresco painting, no other can at all compare with it.

It is ready for use as it comes from the keg, and needs no mixing or grinding.

NOTICE TO CONTRACTORS AND BUILDERS.

Important Discoveries and New Arrangements!

THE subscriber has discovered upon his premises a splendid

QUARRY OF FREESTONE,

which promises to surpass anything yet found in the state, as well as add to the many already developed resources of our city,

A Beautiful, Cheap and Durable Building Material,

He has made arrangements to work this, together with the justly celebrated

Monterey Lime Stone Quarry,

on a scale equal to the demands of our enterprising citizens, and in order to accommodate his numerous customers, he has made arrangements to keep constantly on hand a large supply of

ATHENS MARBLE

(or Chicago stone.) He is now fitting up extensive saw and scouring mills, and other machinery necessary for working the same, at a great reduction from former prices.

He also wishes to call attention to the fact that sound cutting or dimension stone can only be found at great distances from the surface, and that the Monterey Quarry is the only one in this county that has been worked far enough to reach those formations that are imperishable when exposed to the action of air and frost.

He is also supplying his Quarry with Derricks to facilitate the handling and loading large stone, and is fitting up expensive wagons, carts and trucks, rigged with the most approved appliances for moving and delivering dimension stone of any size, from two to thirty feet square, and from six to twenty inches thick, or any required length up to one hundred feet, to any part of the city or on board of the cars.

He is prepared to furnish

Cut Stone

of every description,

PLAIN, MOULDED, CARVED OR POLISHED FLAGGING

of any required dimension.

Curbing, Paving, Ruble and Coursing

stone of the best quality in the state, all of which will be delivered at his Quarries or any part of the city, to suit purchasers.

In conclusion, he begs to assure the public that from the superior quality of his materials, and facilities for furnishing, he can and will make it to their interests to patronize the Monterey Quarries.

THE above are *First Class, justly popular, and prompt paying* companies. They invite investigation into their condition and solicit business entirely upon their real merits. In point of solvency and reliability and honorable dealing, they have but *few equals, and no superiors.* They are founded upon the very best securities in the world—first class bonds and mortgages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the fluctuations of the market, and liable, *in times of panic*, as the experience of the past teaches, to become almost, if not entirely, valueless. And while there are Companies entering the field of competition, well calculated to mislead by publishing *partial and one-sided* statements of their condition, and without a cash surplus on hand sufficient to reinsure their outstanding risks, the above named companies always have and keep over and above their capital *twice* the amount, and in most instances *four* times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for liberal patronage.

Policies issued without delay, and farms risks for a series of years taken at less rates than can be done by Mutual Companies, and a *certainty* given instead of an *uncertainty.* All losses promptly adjusted and paid.

The solid service long and successfully tried, and the many advantages the Ætna Insurance Company possess in its line, should not be overlooked by those ready to insure and understanding their bests interests.

During "stringent times" the necessity for reliable Insurance becomes an imperative duty—the ability of property holders to sustain loss being then much lessened.

From Charleston.

The democracy progresses slowly at Charleston. The platform has at last been adopted in the committee by a majority of one. It is in favor of congressional intervention to protect slavery in the territories, and denies the power of the people of the territories or of congress to legislate against it. If adopted by the convention it will not only use up Douglas, but the democratic party. We are quite willing that they should commit political servitude if they choose to do so.

The African at Charleston.

Our readers will remember that it is the habit of democratic editors and orators to represent the republican party as entirely governed in its policy by the question of slavery, while the democratic party, they say, looks upon all such questions with great contempt. They are above it, and declare that the "nigger" has nothing to do with their conventions or platforms. They take great credit to themselves for this, and are opposed to all sectional controversies about the [illegible] of the African race in this country. *They* are for white men and white politics!

Some of them have, doubtless, believed their party to be situated as has been represented, and they adhere to the *national* democratic party in order to keep clear of all discussions on this distasteful subject.

This class of democrats will learn, we think, from the proceeding at Charleston, that they are slightly mistaken. They may be horror stricken at the idea, but it is not less true that the African has risen in the midst of the Charleston convention, and was likely to produce a disruption of the national democratic party which vainly asserts that it has nothing to do with slavery. It is a ghost, (a dark one it is true,) which *will* come up to disturb and distract their deliberations. It will not "down" at the bidding of any of the witches who surround the bubbling and seething cauldron at Charleston.

What is peculiarly annoying to the democracy, also, is the fact that the division of the party at Charleston is *sectional.*—There is no one thing on which our "broad gauge" democrats dote, more than their nationality—the entire obliteration of every line indicating sectionality. But the truth is, the row de dow which is in progress at Charleston develops an intense degree of sectionalism in the democratic party. It is the south against the north; and it is the horrid African which is the cause of it. The south demands a slave code for the territories and the seas. This they say they *will* have, or they will retire from the convention leaving the north to look aghast at the ruin of their great party which was never to do so mean a thing as to bow down to sectional lines in its organization. Douglas is willing to do anything to prevent this catastrophe, except to take ground which will beat him in the north. He knows that a slave code will destroy him and his party among the northern people. The democrats here have not quite come up to that standard yet. It is too early by at least four years. At the end of that time they would have progressed far enough to embrace the code which envelops the African; but not now—it is too sudden, and the sensibilities of the northern democracy are shocked at the prospect. They cannot stand the odor of the thing. But instead of the code Douglas proposes the Cincinnati platform and the Dred Scott decision. This is just as much as the northern democrats will stand, and Douglas knows it. The south, however, will have more than this or they will prevent the election of the democratic nominee for the presidency. Why should they be content with what they have got? It is the nature of their institution, and of the politicians bred under it, to demand and get what they ask for without reference to the rights of others. The northern democracy, therefore, will submit to the protection of slave property by a national statute. Such is the platform which has been reported at Charleston. It is a thoroughly African platform—ebony in every plank; and Douglas and his followers must submit, or make a sectional division of the party. As submission is the habit of the northern allies of the southern slave drivers, is not hard to predict what they will do.

From all this it must be evident that the African has played a conspicuous part at Charleston, notwithstanding the democracy everywhere insist that they have nothing to do with slavery. Whatever they may have said about it heretofore, denying such to be the fact, it must now be admitted that the protection of slavery is the sole object of the existence of that party. It will live through the Charleston convention only because it will promise to perform that service to the south.

Simeon Mills, of Madison, has been appointed treasurer of the Hospital for the Insane, and has filed his bond, which has been approved by the governor.

J. P. D. Vosswinkle has been appointed by the Bank Comptroller to the post of Bank Register, vice John P. McGregor, resigned. Mr. Voswinkle has filed his bond, which has been approved by the governor.

Edward D. Ilsley has been appointed assistant Bank Register, the office vacated by Mr. Vosswinkle.

Judge Cate's official majority over J. S. Alban is 1,350.

OFFICIAL VOTE FOR CHIEF JUSTICE.—The official results in all the counties have been received at Madison, and Dixon's majority is 143. In this calculation 367 votes for Luther H. Dixon and L. B. Dixon, and 107 for Scott Sloan, are thrown out. Dixon has, therefore, a majority of 143 notwithstanding these informalities.

☞ The Chicago Tribune says there is great activity in the corn market—the sales on Wednesday amounting to 250,000 bushels.

IOWA WHEAT CROP.—Wheat promises well in Iowa. The following paragraph from the Dubuque Herald represents the general tenor of accounts from that state:

"The grain fields in this country are commencing to look very fine. We have very brilliant prospects for a big crop next fall. The amount of land cultivated this year will exceed that of last year by at least one-half."

THE CULTURE OF STAWBERRIES.—Select a warm, moist, but exposed situation; for early berries, let slope to the east or south; for late ones to the north. The soil should be fine gravelly loam. Avoid high, barren soil, make it clean, underdrain, leaving the drain open at both ends to allow the circulation of air. Pulverize at least two feet in depth, making 10 per cent of the soil as fine as superfine flour. For manures apply 30 bushels of unleached ashes and 12 bushels of lime slacked with water holding 3 bushels of salt in solution to the acre.—Transplanting should be done with great care, and the rootlets of the plant injured as little as possible. The best time to transplant is in the spring, though with care it may be done any time during the summer. The lecturer said he should, in starting a new bed, place the plants three feet apart each way, and allow them to spread till they were only twelve inches from each other.—Nearer than this they should never grow. The beds should be mulching with tan bark, straw or some other material to the depth of half an inch, no more. This keeps down weeds and keeps all but the strongest runners from taking root. Water may be added with great advantage in large quantities, except during flowering and ripening periods, provided it does not stand and become stagnant on the soil. After this preparation little attention is needed. The hoe should never be about the plants, as it injures the roots. Field culture differs little from garden culture. The productiveness of the strawberry about New York does not average more than forty bushel per acre. There is no difficulty in raising 250 bushels under the cultivation he recommended. In the winter plants should be lightly covered.—The strawberry may be made everbearing by entirely preventing the growing of the runners. This may be done by planting in soil composed of three-quarters river sand and one-quarter woods-mould. The staminate and pistilate plants need not be grown within thirty or forty feet of each other.—Seedlings are easily raised. The analysis of the plant differs in different places the best varieties are Wilson's Seedlings, Hooker's Seedlings, Longworth's Prolific, Hovey's Seedlings and Burr's New Pine. There are many others nearly as good. Wilson's Seedling is very prolific, 260 berries many of them large ones, have been grown on a single plant.—*Lecture by R. G. Pardee.*

THE DROUTH AND THE LUMBER TRADE.—The want of rain is as bad on the lumbermen as others. The rivers are all so low that they can run nothing to market. The Wood County Reporter says:

"The absence of rain this spring has been the cause of serious damage to our Lumbermen, the river being so low as to prevent any considerable amount of Lumber from going over the rapids. A large quantity of lumber is tied up about a mile above this place, and also at Neeves' eddy. Unless we get rain soon, the boys will have to wait for the 'June fresh.'"

Irving was a vigorous walker and a fearless rider, and in his declining year he drove out daily, not only for the sake of the open air and motion, but to refresh his mind with the aspect of nature. One of his favorite recreations was listening to music, of which he was an indulgent critic, and he contrived to be pleased and soothed by strains less artfully modulated than fastidious ears are apt to require.—*Bryant.*

A LOAD OF FEMALE PIKE'S PEAKERS.—This morning a company of fifteen persons, from Pine river, Waushara county, passed through this city, in ox wagons, on their way to Pik's Peak; a Mr. Metcalf was the head man. We learn that besides the three men who had charge of the cattle, there was another of the male sex in the company—the rest of the fifteen being *girls,* ranging from six up to nineteen and twenty.

Geo. S. Clark, Wm. Wallace, Nelson Mc Neil, J. Highfield and John L. Carter, of this city, left for the gold regions of Pike's Peak this morning.—*Madison Journal.*

FIST HAMMERING.—If two men were preparing to attack each other with hammers on some pleasant day in April, would it be necessary to sit still and do nothing but bet upon the result? Does it make any serious difference when the hammers are human fists, instead of iron tools? Two men are known to be getting ready to fall upon each other with their Cyclopian fists, and to batter and bang until one is killed or maimed, or is so beaten and bruised that he cannot stand up. Nothing depends upon the affair but bets upon both sides of the Atlantic. Nothing is settled or proven by it. It is a piece of unmitigated brutality.—It is the most disgusting exhibition of bestial qualities, which see doubly bestial when so used. Great muscular strength is a grand thing, although the apotheosis of muscle is rather overdone at the present moment; but there is nothing half so agreeable in seeing the superior strength of one man proved by mangling another into a bloody jelly, as in seeing a hungry bear quietly hug a man to death, and eat him up.—In the latter case, it is a famished beast using the power of a beast to satisfy his natural craving. In the former case, it is a man using the power of a beast to maim or murder another man for no possible purpose whatsoever.

The gladiatorial combat of a prisoner with a beast—the enforced fight between two captives—the miserable, ridiculous duel even—all have some intelligible excuse, but they are all frightful in themselves, and in their influence and result. The prize-fight is unredeemed savagery. It is the absolute negation of humanity. It is a degradation beneath beasts, for wild animals are never less than animals; while a man in a prize-ring shows no quality of humanity.—*Harper's Weekly.*

A FREE COUNTRY.—A convention of republicans, composed of a few of the best men in Maryland, at the head of whom was Montgomery Blair, was broken in upon by a gang of rowdies at Baltimore, yesterday, and forced to quit the hall and seek quarters unknown to the mob. Several of the delegates were knocked down, and all were followed down the streets by ruffians hooting at free speech and the constitutional right of the people peacefully to assemble. This is a free country!—*Chicago Tribune.*

DEMOCRATIC CONVENTION.

CHARLESTON, April 26.

The convention did not adjourn as was supposed. The motion being withdrawn to enable Mr. Montgomery of Pennsylvania to present a resolution to instruct the committee not to report a national committee until the nominations are made. The subject was referred to the committee.

The following resolution was presented by Monton of Louisiana, and is said to come from Senator Slidell:

Resolved, That the territories belong to the several states as common property, and not to the individual citizens thereof, that the federal constitution recognizes property in slaves, and as such the owner thereof is entitled to carry his slaves into any territory of the United States and hold them there as property, and in case the people of the territories, by any action, unfriendly legislation or otherwise, should endanger the tenure of such property, or discriminate against it by withholding that protection given to other property in the territories, it is the duty of the general government to interfere by an active execution of its constitutional power to secure the rights of slaveholders.

At quarter to 12 o'clock the convention adjourned till 4 o'clock.

4 O'CLOCK.

Convention met. The committee on platform were not yet ready to report.

Mr. Coles of Rhode Island offered a resolution instructing the committee on platform to the following additional resolutions.

Resolved, That we recognize to the fullest extent the principle that to preserve the Union, the equality of the states must be preserved and the doctrine of the country enforced, and that every branch of the federal government shall exercise all its constitutional powers in the protection of persons and property, both in the states and the territories.

An exciting scene arose on the presentation of this resolution and it was finally ruled out of order as under the platform rule and must be referred to that committee.

Several other resolutions were offered, and it was repeatedly asserted that the platform committee would be unable to report at all.

A resolution was then offered instructing the committee to report what progress they had made at 10 o'clock to-morrow morning, pending which the convention adjourned till 10 A. M. to-morrow.

The excitement is increasing.

CHARLESTON, April 26.

The New York delegation met this A. M. and rejected Mr. Bayards proposition, but instructed Mr. Croswell to vote for that of Mr. Stevens, which affirms the Cincinnati platform and declares the purpose to abide by, approving and enforcing all decisions of the Supreme Court.

The Pennsylvania delegation met, but took no action on the subject.

Various states have conferred, and the convention is now referring their delegatory resolutions to the platform committee.—This question engrosses all the present interest, and entirely overshadows that of candidates, as a rupture is imminent without some satisfactory agreement. The public interest is greatly increased as the crisis approaches.

The galleries and floors of the convention are thronged with excited spectators of both sexes. A great sectional excitement is raising here to-day.

The southern cotton states are rampant and threaten to leave the convention in a body, and nominate Jefferson Davis for President, and Fernando Wood for Vice President, if the platform does not repudiate squatter sovereignty.

Mr. Douglas has telegraphed to his friends to accept the Cincinnati platform and the Dred Scott decision, but not to go one step beyond this.

The committtee on platform meet again this evening, and each member of the committee is instructed by his delegation as to how he shall act. It is stated that Mississippi, Texas, Louisiania, Florida and Alabama will leave the convention in case of a flare up, and probably Georgia and South Carolina.

To-morrow will be an exciting day. Mr. Yancy is cocked and primed to the fail, and fire-eaters generally are in the greatest state of excitement.

BALTIMORE, April 26.

The republican convention, before adjourning, elected F. P. Blair and Wm. L. Marshall delegates at large to the Chicago convention. Some doubt was expressed as to Mr. Marshall's being a member of the republican association, and a committee was appointed to communicate with him and ascertain his views.

The convention reassembled at 2 P. M., in the office of Jas. Cary Coole, agent of the New York underwriter, in the Exchange building, when the following business was transacted:

The committee appointed to select delegates from each congressional district to represent the state of Maryland in the Chicago convention, submitted the following:

First District—James Bryan and D. W. Oren.

Second—James Jeffries and W. P. Ewing.

Third—Francis S. Corkeran and James Walling.

Fourth—Wm. E. Cole and Jonathan Schumacker.

Fifth—Chas. S. Armour and E. Jeanlen.

Sixth—— Blair and Fred Iddins.

On motion of Mr. Jeffries, the delegates were requested to vote in the Chicago convention as a unit.

A motion was adopted, that the President be authorised to appoint an executive committee for the state. The said committee to form an electoral ticket to be supported by the voters of the state.

The President announced the following as an executive committee:

Wm. E. Cole, Dr. Wess, Edwin Smith, John H. Gould, Dr. Geo. Harris, C. L. Armour, Wm. Pickney Ewing and Absalom Rowan.

A resolution was unanimously adopted, pledging the republican party to support the nominee of the Chicago convention, be he who he may.

The thanks of the convention were tendered to the President and other officers, and to Marshal Herring, of the police force, for the efforts he made to protect the delegates in the morning. The convention then adjourned *sine die.*

CHARLESTON, Thursday evening.

Tribune's Correspondence.—The Tennessee platform which the Pennsylvania delegation have recommended, is as follows:

Resolved, That the federal government has no power to interfere with slavery in the states, or exclude it from the territories and no duties to perform in relation thereto, but protect the rights of the owner from wrong and restore fugitives from labor.—These duties it cannot withhold without a violation of the constitution.

New York is still uncommitted on a candidate, though several leading men of both interests in the delegation are against Mr. Douglas.

The following is the platform just adopted by the committee:

Resolved, That the platform adopted at Cincinnati be re-affirmed with the following additional resolutions:

Resolved, That the national democracy of the United States hold these cardinal principles on the subject of slavery in the territories:

First—That congress has no power to abolish slavery in the territories.

Second—That the territorial legislature has no power to abolish slavery in the territories, nor prohibit the introduction of slavery therein, nor any power to destroy, by any legislation whatever.

Resolved, That it is the duty of the federal government to protect, when necessary, the rights of persons or property on the high seas, in the territories, or wherever its constitutional jurisdiction extends.

This platform combines the resolutions of Bayard of Deleware, and Clark of Missouri. It was adopted by 18 to 15, but Mr. Croswell changed his vote from the affirmative to the negative, making the actual result 17 to 16. Oregon and California voted with the south. It is regarded as a fatal blow at Douglas.

The minority will report the Cincinnati platform, with a general approval of the decisions of the supreme court, and an obligation to return fugitives slaves.

11:30, P. M.

It is estimated that 180 votes will be cast against the majority platform. The delegations from Missouri, Kentucky and Tennessee are divided.

WASHINGTON, April 27.

HOUSE.—Mr. Curtis asked leave to offer a resolution directing the secretary of war to communicate to the military committee a full plan and schedule of floating batteries now in course of construction in the vicinity of New York harbor. The amount of money expended thereon, and the estimated cost of completing the same, and that the military committee report such changes as may be consistant with the public interests. Mr. Curtis said it was time the country knew something about the battery, the peculiar construction of which had been kept a perfect secret.

Mr. Houston said it was unusual to direct an executive officer to report to a committee. Mr. Curtis explained that the reason for this was, that the committee may reason, examine, and determine the propriety and construction of Stevens' battery, if proper the work will go on, if any thing was necessary to be kept secret it could be done. Mr. Houston thought it was better for him to object to the resolution this morning. The house went into committee of the whole on the state of the Union.

SCENE IN THE HOUSE—PUNNING EXTRAORDINARY.—While the Pryor-Potter controversy was going on in Washington, a vote of the House was called upon some minor matters. When Mr. Potter's name was called, an old Dutch member from Pennsylvania, who never takes up time unless he has something to say to the point, rose in his place and excused Mr. Potter thus:—"Mishter Shpeaker, I vill shust say ash how Mishter Potter has a Pryor engagement." Both sides of the House and the galleries united in an uproarious explosion of mirth at the honorable member's sally of wit, and it was only checked to be redoubled, when, after the name of Mr. Pryor was called, the same old Hans arose and said: "Vell, Mishter Spheaker, Mishter Pryor has gone to pe ash clay in te hands of te Potter." For some moments the scene in the house was indescribable, and, for the nonce, five pound Bowie-knives and shotted rifles were at a discount.

Soon after the conquest of Constantinople by Mahomet II, a law was promulgated declaring that all male children born into any of the imperial families should be put to death immediately after birth, the object being to secure the nation from trouble touching the succession to the throne.—This law has lately been carried into effect in the case of a male child born to the wife of Mahmud Baja, a daughter of Abdul Medjid, the present sultan of Turkey. The child was strangled a few hours after its birth, despite the tears and supplications of its mother, and the protestations of its father. The inhumanity of the affair has been a good deal discussed in Turkey, and hopes are entertained that a repeal of the law will be the ultimate result.—*New York Commercial Advertiser.*

Japan—Arcadia Realized.

While some of the civilized nations of our globe have prided themselves upon the attention they have given to public education, they have only followed the example of the Japanese. This singular people have a most decided literary taste, and they believe in "educating the masses." The children are almost invariably sent to schools in which they learn reading and writing and are taught the history of their country.—Books are constantly printed, and are said to meet with a large circulation, and it would seem that the Japanese are really as much a reading people as some who are deemed more civilized than they. With them education seems to have produced marked results. Drunkenness and vice are rare, and beggars are seldom met with.—Theft seems a crime of which they are ignorant, since locks and keys are but little used. Then, too, though it is hard to believe it, lawyers are a class of men unknown in Japan; and perhaps this is one cause of the peace and good will which seems to exist among the people. There every man is his own lawyer. The injured party states his case to the magistrate, and the accused is heard in reply. The magistrate examines witnesses, and passes sentence, "which," says Commodore Perry, "is carried into effect *instanter.*" There, there are no motions for arrest of judgment—no motions for new trials, no appeals of any kind; and yet justice is generally obtained—quite oftener perhaps than it is here, and too at less expense, and more expeditiously. Some times parties are *ordered* to settle their difficulties with the aid of their friends.—Then when persons are put in prison, there is no distinction made between the rich and the poor, both fare alike. The rich man can have good food if he wants it, but only on one condition that he shares it with all his fellow prisoners. There is another point in regard to which the Japanese are in advance of some other nations, and this a point which we of this city at least can appreciate—there is little or no taxation. The revenues are derived from rents of land owed by the crown. Really it would seem, from what we have thus learned of Japan, that it approaches nearer the Arcadia of Sir Phillip Sidney than any portion of the civilized world. A place in which there are no lawyers, in which there is no taxation, in which murder, robbery, theft, and begging are almost unknown, and where the people are educated, and refined and elegant in their tastes, must be a desirable spot to reside in.

FROM THE NORTH POLE—"OR THARABOUTS."—Letters dated Fort Simpson, McKenzie's River, 9th and 30th November, '59, have just been received in our city, from Mr. Robert Kennicott, naturalist, explorer, enthusiast, etc. Our readers will remember that Mr. K. left here last spring, for the Hudson's Bay territory, under the auspices of the Smithsonian Institution, at Washington, also aided and assisted by contributions from the Michigan University, the Audubon Club of our city, and more particularly the Chicago Academy of Sciences, as well as by private naturalists; his purpose—the scientific exploration of the almost unknown regions around Slave Lake, Lake Athabasca, McKenzie's, Peel's, and Anderson's rivers, in British North America, and the Yukon river, in Russian America.

He writes that he meets with capital success—is received kindly, and treated with generous hospitality by the officers and employees of the Hudson Bay Company, and will probably spend two more winters up there, leaving Fort Simpson in March last, on snow shoes, crossing Slave Lake to Fort Resolution, staying there till August, then back to Fort Simpson, and down to Peel's river in September; then across the mountains, and down the Yukon, into Russian America, where he will spend the winter and summer; the third winter he hopes to spend at La Pierre House, in the Rocky Mountains, and in the spring go up on snow shoes to Fort Good Hope, and thence by boat to Fort Simpson, and home, the same summer.

He has collected several thousand specimens, illustrating the botany, geology, and mineralogy, but more particularly the zoology of the country he has traversed, and has found numberless new species of the latter, several vertebrates not yet described in any work, nor contained in any collection in this country or Europe. His undertaking is a grand one, in its conception, and he is working out its details with a faithfulness and intelligence which will place his name with the Audubons and Wilsons of naturalists, and the Parrys and Franklins and Kanes of explorers.—*Chicago Times.*

THE MASSACHUSETTS CATTLE DISEASE.—We condense the history of the destructive disease now raging among the cattle in Massachusetts. In the month of May, 1859, there arrived at Boston from Holland, four dutch cows directed to W. W. Chenery, of Belmont. These cows were black, thick skinned, large, and said to be great milkers. On landing they appeared hungry, thirsty and neglected, and one of them, it is said, had not been on her legs for twenty days. Two of these cows had to be carted to Belmont, some six miles from Boston. A few days after their arrival, on the 31st of May, one of the cows died; on the 2d of June a second died, and on the 30th of June a third died. In all, Mr. Chenery has within a year lost twenty seven head of cattle of other importations, then on his premises. The disease was not supposed contagious till recently. It will be remembered that the Massachusetts legislature recently appointed commissioners to visit the district where it prevails, and put to death the infected. They went to work last week, and up to the present time about 100 head have been killed. The first symptoms of the disease are a drooping of the head, a cough, refusal to eat, and a panting for breath. At present the disease is confined to a territory about twelve miles square, a territory abounding in cattle. All trade is suspended, the cattle are forbidden under penalty to be sold, and the herds are ordered by the commissioners to be closely kept on their premises.

NEARLY DROWNED—RESCUED BY A MILWAUKEEAN.—The Oshkosh Democrat of Tuesday says:

"Yesterday afternoon, as some small children were playing on a lot of saw logs lying in the river at Neenah, at the upper end of the village, a little girl who had ventured out to the outermost logs, fell into the river. After several attempts she succeeded in getting hold of a log so as to sustain herself for a few moments, and Mr. Edward Miller, of the Northwestern Type Foundry, at Milwaukee, who happened to be passing at the time with a team, jumped from his buggy, and by carefully stepping from log to log, succeeded in reaching and pulling her out of the water. But for this timely assistance she would in all probability have drowned."

SNAKE BITE.—Yesterday afternoon a little child of Mr. Chillett nearly died from the bite of a snake. The mother had just stepped out of the shanty for a pail of water, and after gossipping with the neighbors, returned and found the child in spasms. She had just commenced sweeping, and in a pile of dust near the child she discovered the trail of a snake. Quick as thought she took the child and sucked some of the poison from the wound which was in the arm. Its life is despaired of, however, and the mother is also sick, having, it is thought, swallowed some of the poison. The first warm weather induced the reptile to come up through the floor of the shanty.—*Madison Journal.*

MOST EXTRAORDINARY RESULTS
FROM THE USE OF
WINCHESTER'S GENUINE
Hypophosphites
IN THE CURE OF CONSUMPTION.

I need only call the attention of all Consumptive sufferers, whether in advanced or the incipient stage of the disease, to the following extract from a letter addressed to me by a physician of great experience, and extensive practice in Chester Co., Pa. The voluntary evidence of professional men, such as that of Dr. Townsend, ought to convince the most skeptical of the extraordinary efficacy of my preparation of Hypophosphites:

CHATHAM, Pa., 3d Month, 27th, 1860.

FRIEND J. WINCHESTER:— * * Thirty-six persons have obtained the medicine from me, twelve of whom have been under my own care. Five of them were, in my opinion, and in the judgment of other physicians, hopeless cases of Phthisis—irritable cough, copious expectorations of a purulent character, night sweats and emaciation. These cases were from one to three years' standing. Auscultation and percussion developed tubercles, which, taken in connection with other symptoms, gave evidence of a condition from which I have never in seventeen years' practice, seen a single case recover by any other treatment. * * Under the use of the Hypophosphites, all the bad symptoms ceased; they have gained flesh and strength and health—some of them better than they had enjoyed for seven years previously.

The other cases under my care were in the incipient stage, and in them all symptoms and traces of the disease have disappeared. Of those who were not under my care, I have not heard of a single patient who [illegible] himself benefitted by the use of the remedy, although in some of them the disease was too far advanced to admit the possibility of recovery.

I presume I am as skeptical in medicines or specifics as most physicians; yet, from the experience I have had in the use of Dr. J. F. Churchill's Remedy for Tuberculosis, I would say to all who have a tendency to that disease—take it, and the sooner the better, before there is any disorganization. * *
W. W. TOWNSEND, M. D.

The Hypophosphites of Lime and Soda

act with promptness and certainty in every stage of Consumption, and with invariable efficacy in all derangements of the nervous and blood systems, general debility, dyspepsia, asthma, rickets, female complaints, spermatorrhea, in all disorders depending on imperfect or impaired nutrition, and in all cases of local or constitutional debility. They increase the nervous or vital energy, relieve cough, check night sweats, diminish expectoration, improve the appetite, arrest diarrhea, promote refreshing sleep, and create new and healthy blood. A fair trial is a certain cure.

Winchester's Genuine Preparation

of the Hypophosphites of Lime and Soda, is the only reliable form of Dr. Churchill's remedy, and is approved by the medical profession generally. Use no other or any remedy containing iron.

From Charleston.

The democracy progresses slowly at Charleston. The platform has at last been adopted in the committee by a majority of one. It is in favor of congressional intervention to protect slavery in the territories, and denies the power of the people of the territories or of congress to legislate against it. If adopted by the convention it will not only use up Douglas, but the democratic party. We are quite willing that they should commit political servitude if they choose to do so.

The African at Charleston.

Our readers will remember that it is the habit of democratic editors and orators to represent the republican party as entirely governed in its policy by the question of slavery, while the democratic party, they say, looks upon all such questions with great contempt. They are above it, and declare that the "nigger" has nothing to do with their nominations or platforms. They take great credit to themselves for this, and are opposed to all sectional controversies about the servitude of the African race in this country. *They* are for white men and white politics!

Some of them have, doubtless, believed their party to be situated as has been represented, and they adhere to the *national* democratic party in order to keep clear of all discussions on this distasteful subject.

This class of democrats will learn, we think, from the proceeding at Charleston, that they are slightly mistaken. They may be horror stricken at the idea, but it is not less true that the African has risen in the midst of the Charleston convention, and was likely to produce a disruption of the national democratic party which vainly asserts that it has nothing to do with slavery. It is a ghost, (a dark one it is true,) which *will* come up to disturb and distract their deliberations. It will not "down" at the bidding of any of the witches who surround the bubling and seething cauldron at Charleston.

What is peculiarly annoying to the democracy, also, is the fact that the division of the party at Charleston is *sectional.*—There is no one thing on which our "broad gage" democrats doat, more than their nationality—the entire obliteration of every line indicating sectionality. But the truth is, the row de dow which is in progress at Charleston develops an intense degree of sectionalism in the democratic party. It is the south against the north; and it is the horrid African which is the cause of it. The south demands a slave code for the territories and the seas. This they say they *will* have, or they will retire from the convention leaving the north to look aghast at the ruin of their great party which was never to do so mean a thing as to bow down to sectional lines in its organization. Douglas is willing to do anything to prevent this catastrophe, except to take ground which will beat him in the north. He knows that a slave code will destroy him and his party among the northern people. The democrats here have not quite come up to that standard yet. It is too early by at least four years. At the end of that time they would have progressed far enough to embrace the code which envelops the African; but not now—it is too sudden, and the sensibilities of the northern democracy are shocked at the prospect. They cannot stand the odor of the thing. But instead of the code Douglas proposes the Cincinnati platform and the Dred Scott decision. This is just as much as the northern democrats will stand, and Douglas knows it. The south, however, will have more than this or they will prevent the election of the democratic nominee for the presidency. Why should they be content with what they have got? It is the nature of their institution, and of the politicians bred under it, to demand and get what they ask for without reference to the rights of others. The northern democracy, therefore, will submit to the protection of slave property by a national statute. Such is the platform which has been reported at Charleston. It is a thoroughly African platform—ebony in every plank: and Douglas and his followers must submit, or make a sectional division of the party. As submission is the habit of the northern allies of the southern slave drivers, is not hard to predict what they will do.

From all this it must be evident that the African has played a conspicuous part at Charleston, notwithstanding the democracy everywhere insist that they have nothing to do with slavery. Whatever they may have said about it heretofore, denying such to be the fact, it must now be admitted that the protection of slavery is the sole object of the existence of that party. It will live through the Charleston convention only because it will promise to perform that service to the south.

Simeon Mills, of Madison, has been appointed treasurer of the Hospital for the Insane, and has filed his bond, which has been approved by the governor.

J. P. D. Vosswinkle has been appointed by the Bank Comptroller to the post of Bank Register, vice John P. McGregor, resigned. Mr. Voswinkle has filed his bond, which has been approved by the governor.

Edward D. Ilsley has been appointed assistant Bank Register, the office vacated by Mr. Vosswinkle.

Judge Cate's official majority over J. S. Alban is 1,359.

OFFICIAL VOTE FOR CHIEF JUSTICE.—The official results in all the counties have been received at Madison, and Dixon's majority is 143. In this calculation 367 votes for Luther H. Dixon and L. B. Dixon, and 107 for Scott Sloan, are thrown out. Dixon has, therefore, a majority of 143 notwithstanding these informalities.

☞ The Chicago Tribune says there is great activity in the corn market—the sales on Wednesday amounting to 250,000 bushels.

IOWA WHEAT CROP.—Wheat promises well in Iowa. The following paragraph from the Dubuque Herald represents the general tenor of accounts from that state:

"The grain fields in this country are commencing to look very fine. We have very brilliant prospects for a big crop next fall. The amount of land cultivated this year will exceed that of last year by at least one-half."

THE CULTURE OF STAWBERRIES.—Select a warm, moist, but exposed situation; for early berries, let slope to the east or south; for late ones to the north. The soil should be fine gravelly loam. Avoid high, barren soil, make it clean, underdrain, leaving the drain open at both ends to allow the circulation of air. Pulverize at least two feet in depth, making 10 per cent of the soil as fine as superfine flour. For manures apply 30 bushels of unleached ashes and 12 bushels of lime slacked with water holding 3 bushels of salt in solution to the acre.—Transplanting should be done with great care, and the rootlets of the plant injured as little as possible. The best time to transplant is in the spring, though with care it may be done any time during the summer. The lecturer said he should, in starting a new bed, place the plants three feet apart each way, and allow them to spread till they were only twelve inches from each other.—Nearer than this they should never grow. The beds should be mulching with tan bark, straw or some other material to the depth of half an inch, no more. This keeps down weeds and keeps all but the strongest runners from taking root. Water may be added with great advantage in large quantities, except during flowering and ripening periods, provided it does not stand and become stagnant on the soil. After this preparation little attention is needed. The hoe should never be about the plants, as it injures the roots. Field culture differs little from garden culture. The productiveness of the strawberry about New York does not average more than forty bushel per acre. There is no difficulty in raising 250 bushels under the cultivation he recommended. In the winter plants should be lightly covered.—The strawberry may be made everbearing by entirely preventing the growing of the runners. This may be done by planting in soil composed of three-quarters river sand and one-quarter woods-mould. The staminate and pistilate plants need not be grown within thirty or forty feet of each other.—Seedlings are easily raised. The analysis of the plant differs in different places the best varieties are Wilson's Seedlings, Hooker's Seedlings, Longworth's Prolific, Hovey's Seedlings and Burr's New Pine. There are many others nearly as good. Wilson's Seedling is very prolific, 250 berries many of them large ones, have been grown on a single plant.—*Lecture by R. G. Pardee.*

THE DROUTH AND THE LUMBER TRADE.—The want of rain is as bad on the lumbermen as others. The rivers are all so low that they can run nothing to market. The Wood County Reporter says:

"The absence of rain this spring has been the cause of serious damage to our Lumbermen, the river being so low as to prevent any considerable amount of Lumber from going over the rapids. A large quantity of lumber is tied up about a mile above this place, and also at Neeves' eddy. Unless we get rain soon, the boys will have to wait for the 'June fresh.'"

Irving was a vigorous walker and a fearless rider, and in his declining year he drove out daily, not only for the sake of the open air and motion, but to refresh his mind with the aspect of nature. One of his favorite recreations was listening to music, of which he was an indulgent critic, and he contrived to be pleased and soothed by strains less artfully modulated than fastidious ears are apt to require.—*Bryant.*

A LOAD OF FEMALE PIKE'S PEAKERS.—This morning a company of fifteen persons, from Pine river, Waushara county, passed through this city, in ox wagons, on their way to Pik's Peak; a Mr. Metcalf was the head man. We learn that besides the three men who had charge of the cattle, there was another of the male sex in the company—the rest of the fifteen being girls, ranging from six up to nineteen and twenty.

Geo. S. Clark, Wm. Wallace, Nelson McNeil, J. Highfield and John L. Carter, of this city, left for the gold regions of Pike's Peak this morning.—*Madison Journal.*

FIST HAMMERING.—If two men were preparing to attack each other with hammers on some pleasant day in April, would it be necessary to sit still and do nothing but bet upon the result? Does it make any serious difference when the hammers are human fists, instead of iron tools? Two men are known to be getting ready to fall upon each other with their Cyclopian fists, and to batter and bang until one is killed or maimed, or is so beaten and bruised that he cannot stand up. Nothing depends upon the affair but bets upon both sides of the Atlantic. Nothing is settled or proven by it. It is a piece of unmitigated brutality.—It is the most disgusting exhibition of bestial qualities, which see doubly bestial when so used. Great muscular strength is a grand thing, although the apotheosis of muscle is rather overdone at the present moment; but there is nothing half so agreeable in seeing the superior strength of one man proved by mangling another into a bloody jelly, as in seeing a hungry bear quietly hug a man to death, and eat him up.—In the latter case, it is a famished beast using the power of a beast to satisfy his natural craving. In the former case, it is a man using the power of a beast to maim or murder another man for no possible purpose whatsoever.

The gladiatorial combat of a prisoner with a beast—the enforced fight between two captives—the miserable, ridiculous duel even—all have some intelligible excuse, but they are all frightful in themselves, and in their influence and result. The prize-fight is unredeemed savagery. It is the absolute negation of humanity. It is a degradation beneath beasts, for wild animals are never less than animals; while a man in a prize-ring shows no quality of humanity.—*Harper's Weekly.*

A FREE COUNTRY.—A convention of republicans, composed of a few of the best men in Maryland, at the head of whom was Montgomery Blair, was broken in upon by a gang of rowdies at Baltimore, yesterday, and forced to quit the hall and seek quarters unknown to the mob. Several of the delegates were knocked down, and all were followed down the streets by ruffians hooting at free speech and the constitutional right of the people peacefully to assemble. This is a free country!—*Chicago Tribune.*

There is a lawyer in Plymouth, England, so excessively honest that he puts all his flower-pots out over nights, so determined is he that everything shall have its *dew.*

REPORTED FOR THE MORNING GAZETTE.

Office in Union Passenger Depot.

DEMOCRATIC CONVENTION.

CHARLESTON, April 26.

The convention did not adjourn as was supposed. The motion being withdrawn to enable Mr. Montgomery of Pennsylvania to present a resolution to instruct the committee not to report a national committee until the nominations are made. The subject was referred to the committee.

The following resolution was presented by Mouton of Louisiana, and is said to come from Senator Slidell:

Resolved, That the territories belong to the several states as common property, and not to the individual citizens thereof, that the federal constitution recognizes property in slaves, and as such the owner thereof is entitled to carry his slaves into any territory of the United States and hold them there as property, and in case the people of the territories, by any action, unfriendly legislation or otherwise, should endanger the tenure of such property, or discriminate against it by withholding that protection given to other property in the territories, it is the duty of the general government to interfere by an active execution of its constitutional power to secure the rights of slaveholders.

At quarter to 12 o'clock the convention adjourned till 4 o'clock.

4 O'CLOCK.

Convention met. The committee on platform were not yet ready to report.

Mr. Coles of Rhode Island offered a resolution instructing the committee on platform to the following additional resolutions.

Resolved, That we recognize to the fullest extent the principle that to preserve the Union, the equality of the states must be preserved and the doctrine of the country enforced, and that every branch of the federal government shall exercise all its constitutional powers in the protection of persons and property, both in the states and the territories.

An exciting scene arose on the presentation of this resolution and it was finally ruled out of order as under the platform rule and must be referred to that committee.

Several other resolutions were offered, and it was repeatedly asserted that the platform committee would be unable to report at all.

A resolution was then offered instructing the committee to report what progress they had made at 10 o'clock to-morrow morning, pending which the convention adjourned till 10 A. M. to-morrow.

The excitement is increasing.

CHARLESTON, April 26.

The New York delegation met this A. M. and rejected Mr. Bayards proposition, but instructed Mr. Croswell to vote for that of Mr. Stevens, which affirms the Cincinnati platform and declares the purpose to abide by, approving and enforcing all decisions of the Supreme Court.

The Pennsylvania delegation met, but took no action on the subject.

Various states have conferred, and the convention is now referring their delegatory resolutions to the platform committee.—This question engrosses all the present interest, and entirely overshadows that of candidates, as a rapture is imminent without some satisfactory agreement. The public interest is greatly increased as the crisis approaches.

The galleries and floors of the convention are thronged with excited spectators of both sexes. A great sectional excitement is raising here to-day.

The southern cotton states are rampant and threaten to leave the convention in a body, and nominate Jefferson Davis for President, and Fernando Wood for Vice President, if the platform does not repudiate squatter sovereignty.

Mr. Douglas has telegraphed to his friends to accept the Cincinnati platform and the Dred Scott decision, but not to go one step beyond this.

The committtee on platform meet again this evening, and each member of the committee is instructed by his delegation as to how he shall act. It is stated that Mississippi, Texas, Louisiania, Florida and Alabama will leave the convention in case of a flare up, and probably Georgia and South Carolina.

To-morrow will be an exciting day. Mr. Yancy is cocked and primed to the full, and fire-eaters generally are in the greatest state of excitement.

BALTIMORE, April 26.

The republican convention, before adjourning, elected F. P. Blair and Wm. L. Marshall delegates at large to the Chicago convention. Some doubt was expressed as to Mr. Marshall's being a member of the republican association, and a committee was appointed to communicate with him and ascertain his views.

The convention reassembled at 2 P. M., in the office of Jas. Cary Coole, agent of the New York underwriter, in the Exchange building, when the following business was transacted:

The committee appointed to select delegates from each congressional district to represent the state of Maryland in the Chicago convention, submitted the following:

First District—James Bryan and D. W. Oren.

Second—James Jeffries and W. P. Ewing.

Third—Francis S. Corkeran and James Walling.

Fourth—Wm. E. Cole and Jonathan Schumacker.

Fifth—Chas. S. Armour and E. Jeaulen.

Sixth—-— Blair and Fred Iddins.

On motion of Mr. Jeffries, the delegates were requested to vote in the Chicago convention as a unit.

A motion was adopted, that the President be authorised to appoint an executive committee for the state. The said committee to form an electoral ticket to be supported by the voters of the state.

The President announced the following as an executive committee:

Wm. E. Cole, Dr. Wess, Edwin Smith, John H. Gould, Dr. Geo. Harris, C. L. Armour, Wm. Pickney Ewing and Absalom Rowan.

A resolution was unanimously adopted, pledging the republican party to support the nominee of the Chicago convention, be he who he may.

The thanks of the convention were tendered to the President and other officers, and to Marshal Herring, of the police force, for the efforts he made to protect the delegates in the morning. The convention then adjourned *sine die.*

CHARLESTON, Thursday evening.

Tribune's Correspondence.—The Tennessee platform which the Pennsylvania delegation have recommended, is as follows:

Resolved, That the federal government has no power to interfere with slavery in the states, or exclude it from the territories and no duties to perform in relation thereto, but protect the rights of the owner from wrong and restore fugitives from labor.—These duties it cannot withhold without a violation of the constitution.

New York is still uncommitted on a candidate, though several leading men of both interests in the delegation are against Mr. Douglas.

The following is the platform just adopted by the committee:

Resolved, That the platform adopted at Cincinnati be re-affirmed with the following additional resolutions:

Resolved, That the national democracy of the United States hold these cardinal principles on the subject of slavery in the territories:

First—That congress has no power to abolish slavery in the territories.

Second—That the territorial legislature has no power to abolish slavery in the territories, nor prohibit the introduction of slavery therein, nor any power to destroy, by any legislation whatever.

Resolved, That it is the duty of the federal government to protect, when necessary, the rights of persons or property on the high seas, in the territories, or wherever its constitutional jurisdiction extends.

This platform combines the resolutions of Bayard of Deleware, and Clark of Missouri. It was adopted by 18 to 15, but Mr. Croswell changed his vote from the affirmative to the negative, making the actual result 17 to 16. Oregon and California voted with the south. It is regarded as a fatal blow at Douglas.

The minority will report the Cincinnati platform, with a general approval of the decisions of the supreme court, and an obligation to return fugitives slaves.

11:30, P. M.

It is estimated that 180 votes will be cast against the majority platform. The delegations from Missouri, Kentucky and Tennessee are divided.

WASHINGTON, April 27.

HOUSE.—Mr. Curtis asked leave to offer a resolution directing the secretary of war to communicate to the military committee a full plan and schedule of floating batteries now in course of construction in the vicinity of New York harbor. The amount of money expended thereon, and the estimated cost of completing the same, and that the military committee report such changes as may be consistant with the public interests. Mr. Curtis said it was time the country knew something about the battery, the peculiar construction of which had been kept a perfect secret.

Mr. Houston said it was unusual to direct an executive officer to report to a committee. Mr. Curtis explained that the reason for this was, that the committee may reason, examine, and determine the propriety and construction of Stevens' battery, if proper the work will go on, if any thing was necessary to be kept secret it could be done. Mr. Houston thought it was better for him to object to the resolution this morning. The house went into committee of the whole on the state of the Union.

SCENE IN THE HOUSE—PUNNING EXTRAORDINARY.—While the Pryor-Potter controversy was going on in Washington, a vote of the House was called upon some minor matters. When Mr. Potter's name was called, an old Dutch member from Pensylvania, who never takes up time unless he has something to say to the point, rose in his place and excused Mr. Potter thus:—"Mishter Shpeaker, I vill shust say ash how Mishter Potter has a Pryor engagement." Both sides of the House and the galleries united in an uproarious explosion of mirth at the honorable member's sally of wit, and it was only checked to be redoubled, when, after the name of Mr. Pryor was called, the same old Hans arose and said: "Vell, Mishter Shpeaker, Mishter Pryor has gone to pe ash clay in te hands of te Potter." For some moments the scene in the house was indescribable, and, for the nonce, five pound Bowie-knives and shotted rifles were at a discount.

Soon after the conquest of Constantinople by Mahomet II, a law was promulgated declaring that all male children born into any of the imperial families should be put to death immediately after birth, the object being to secure the nation from trouble touching the succession to the throne.—This law has lately been carried into effect in the case of a male child born to the wife of Mahmud Baja, a daughter of Abdul Medjid, the present sultan of Turkey. The child was strangled a few hours after its birth, despite the tears and supplications of its mother, and the protestations of its father. The inhumanity of the affair has been a good deal discussed in Turkey, and hopes are entertained that a repeal of the law will be the ultimate result.—*New York Commercial Advertiser.*

"Would you not love to gaze on Niagara forever?" said a romantic girl to her less romantic companion. "Oh, no, I shouldn't like to have a catarac always in my eye."

From the New York Courier and Enquirer.

Japan--Arcadia Realized.

While some of the civilized nations of our globe have prided themselves upon the attention they have given to public education, they have only followed the example of the Japanese. This singular people have a most decided literary taste, and they believe in "educating the masses." The children are almost invariably sent to schools in which they learn reading and writing and are taught the history of their country.—Books are constantly printed, and are said to meet with a large circulation, and it would seem that the Japanese are really as much a reading people as some who are deemed more civilized than they. With them education seems to have produced marked results. Drunkenness and vice are rare, and beggars are seldom met with.—Theft seems a crime of which they are ignorant, since locks and keys are but little used. Then, too, though it is hard to believe it, lawyers are a class of men unknown in Japan; and perhaps this is one cause of the peace and good will which seems to exist among the people. There every man is his own lawyer. The injured party states his case to the magistrate, and the accused is heard in reply. The magistrate examines witnesses, and passes sentence, "which," says Commodore Perry, "is carried into effect *instanter.*" There, there are no motions for arrest of judgment—no motions for new trials, no appeals of any kind; and yet justice is generally obtained—quite oftener perhaps than it is here, and too at less expense, and more expeditiously. Some times parties are *ordered* to settle their difficulties with the aid of their friends.—Then when persons are put in prison, there is no distinction made between the rich and the poor, both fare alike. The rich man can have good food if he wants it, but only on one condition that he shares it with all his fellow prisoners. There is another point in regard to which the Japanese are in advance of some other nations, and this a point which we of this city at least can appreciate—there is little or no taxation. The revenues are derived from rents of land owed by the crown. Really it would seem, from what we have thus learned of Japan, that it approaches nearer the Arcadia of Sir Phillip Sidney than any portion of the civilized world. A place in which there are no lawyers, in which there is no taxation, in which murder, robbery, theft, and begging are almost unknown, and where the people are educated, and refined and elegant in their tastes, must be a desirable spot to reside in.

FROM THE NORTH POLE—"OR THEREABOUTS."—Letters dated Fort Simpson, McKenzie's River, 9th and 30th November, '59, have just been received in our city, from Mr. Robert Kennicott, naturalist, explorer, enthusiast, etc. Our readers will remember that Mr. K. left here last spring, for the Hudson's Bay territory, under the auspices of the Smithsonian Institution, at Washington, also aided and assisted by contributions from the Michigan University, the Audubon Club of our city, and more particularly the Chicago Academy of Sciences, as well as by private naturalists; his purpose—the scientific exploration of the almost unknown regions around Slave Lake, Lake Athabasca, McKenzie's, Peel's, and Anderson's rivers, in British North America, and the Yukon river, in Russian America.

He writes that he meets with capital success—is received kindly, and treated with generous hospitality by the officers and employees of the Hudson Bay Company, and will probably spend two more winters up there, leaving Fort Simpson in March last, on snow shoes, crossing Slave Lake to Fort Resolution, staying there till August, then back to Fort Simpson, and down to Peel's river in September; then across the mountains, and down the Yukon, into Russian America, where he will spend the winter and summer; the third winter he hopes to spend at La Pierre House, in the Rocky Mountains, and in the spring go up on snow shoes to Fort Good Hope, and thence by boat to Fort Simpson, and home, the same summer.

He has collected several thousand specimens, illustrating the botany, geology, and mineralogy, but more particularly the zoology of the country he has traversed, and has found numberless new species of the latter, several vertebrates not yet described in any work, nor contained in any collection in this country or Europe. His undertaking is a grand one, in its conception, and he is working out its details with a faithfulness and intelligence which will place his name with the Audubons and Wilsons of naturalists, and the Parrys and Franklins and Kanes of explorers.—*Chicago Times.*

THE MASSACHUSETTS CATTLE DISEASE.—We condense the history of the destructive disease now raging among the cattle in Massachusetts. In the month of May, 1859, there arrived at Boston from Holland, four dutch cows directed to W. W. Chenery, of Belmont. These cows were black, thick skinned, large, and said to be great milkers. On landing they appeared hungry, thirsty and neglected, and one of them, it is said, had not been on her legs for twenty days. Two of these cows had to be carted to Belmont, some six miles from Boston. A few days after their arrival, on the 31st of May, one of the cows died; on the 2d of June a second died, and on the 30th of June a third died. In all, Mr. Chenery has within a year lost twenty-seven head of cattle of other importations, then on his premises. The disease was not supposed contagious till recently. It will be remembered that the Massachusetts legislature recently appointed commissioners to visit the district where it prevails, and put to death the infected. They went to work last week, and up to the present time about 100 head have been killed. The first symptoms of the disease are a drooping of the head, a cough, refusal to eat, and a panting for breath. At present the disease is confined to a territory about twelve miles square, a territory abounding in cattle. All trade is suspended, the cattle are forbidden under penalty to be sold, and the herds are ordered by the commissioners to be closely kept on their premises.

NEARLY DROWNED—RESCUED BY A MILWAUKEEAN.—The Oshkosh Democrat of Tuesday says:

"Yesterday afternoon, as some small children were playing on a lot of saw logs lying in the river at Neenah, at the upper end of the village, a little girl who had ventured out to the outermost logs, fell into the river. After several attempts she succeeded in getting hold of a log so as to sustain herself for a few moments, and Mr. Edward Miller, of the Northwestern Type Foundry, at Milwaukee, who happened to be passing at the time with a team, jumped from his buggy, and by carefully stepping from log to log, succeeded in reaching and pulling her out of the water. But for this timely assistance she would in all probability have drowned."

SNAKE BITE.—Yesterday afternoon a little child of Mr. Chillett nearly died from the bite of a snake. The mother had just stepped out of the shanty for a pail of water, and after gossipping with the neighbors, returned and found the child in spasms. She had just commenced sweeping, and in a pile of dust near the child she discovered the trail of a snake. Quick as thought she took the child and sucked some of the poison from the wound which was in the arm. Its life is despaired of, however, and the mother is also sick, having, it is thought, swallowed some of the poison. The first warm weather induced the reptile to come up through the floor of the shanty.—*Madison Journal.*

MOST EXTRAORDINARY RESULTS
FROM THE USE OF
WINCHESTER'S GENUINE
Hypophosphites
IN THE CURE OF CONSUMPTION.

I need only call the attention of all Consumptive sufferers, whether in advanced or the incipient stage of the disease, to the following extract from a letter addressed to me by a physician of great experience, and extensive practice in Chester Co., Pa. The voluntary evidence of professional men, such as that of Dr. Townsend, ought to convince the most skeptical of the extraordinary efficacy of my preparation of Hypophosphites:

CHATHAM, PA., 3d Month, 26th, 1860.

FRIEND J. WINCHESTER:— * * Thirty-six persons have obtained the medicine from me, twelve of whom have been under my own care. Five of them were, in my opinion, and in the judgment of other physicians, hopeless cases of Phthisis—irritable cough, copious expectorations of a purulent character, night sweats and emaciation. These cases were from one to three years' standing. Auscultation and percussion developed sounds which, taken in connection with other symptoms, gave evidence of a condition from which I have never, in seventeen years' practice, seen a single case recover by any other treatment. * * Under the use of the Hypophosphites, all the bad symptoms ceased; they have gained flesh and strength and health—some of them better than they had enjoyed for seven years previously.

The other cases under my care were in the incipient stage, and in them all symptoms and traces of the disease have disappeared. Of those who were not under my care, I have not heard of a single patient who himself benefitted by the use of the remedy, although in some of them the disease was too far advanced to admit the possibility of recovery.

I presume I am as skeptical in medicines or specifics as most physicians; yet, from the experience I have had in the use of Dr. J. F. Churchill's Remedy for Tuberculosis, I would say to all who have a tendency to that disease—take it, and the sooner the better, before there is any disorganization. * * *
W. W. TOWNSEND, M. D.

The Hypophosphites of Lime and Soda act with promptness and certainty in every stage of Consumption, and with invariable efficacy in all derangements of the nervous and blood systems, general debility, dyspepsia, asthma, rickets, female complaints, spermatorrhea, in all disorders dependent on imperfect or impaired nutrition, and in all cases of local or constitutional debility. They increase the nervous or vital energy, relieve cough, check night sweats, diminish expectoration, improve the appetite, arrest diarrhœa, promote refreshing sleep, and create new and healthful blood. A fair trial is a certain cure.

Winchester's Genuine Preparation

of the Hypophosphites of Lime and Soda, is the only reliable form of Dr. Churchill's remedy, and is approved by the medical profession generally. Use no other or any remedy containing iron.

PRICES.—In 7 and 16 ounce (pint) bottles, $1 and $2 each.

City Improvements.—Among the improvements in our city is that of Messrs. Jackman & Smith; they have put down a good and substantial side-walk in front of their mill property on the south side of Milwaukee street, extending from the corner of Exchange Block to River street. It will add much to the comfort of pedestrians. Now, if the aldermen in the first and fourth wards will put down a walk from Dr. Mitchell's corner to the railroad track, we shall have a first-rate side-walk from the depot to all the business portions of the city. What say you, Mr. Aldermen?

[illegible] Mr. James, the clerk of the board of supervisors, has received the assessment law in pamphlet form, and they are ready for delivery to assessors.

Base Ball.—The Janesville Base Ball Club will meet on their play-ground to-morrow afternoon, at 4 o'clock.

Mr. Editor:—I suppose most of your readers have seen the notice of a concert to be given by Mr. D. D. Wilson (which was postponed a day or so ago) on Tuesday evening next, the 1st inst. As I have had the privilege of attending a rehearsal, I can well say to all who would wish to hear a good concert, and can fully appreciate good music, ought now to avail themselves of this opportunity.

A CONSTANT READER.

As many of our citizens have attended some of Mr. W's concerts, they can judge fully of his musical talent, and can expect a good evening's entertainment. d24f

ALL SORTS OF PARAGRAPHS.

Every young lady is to become "Bachelor of Arts" at the Elmira Female College, when on graduating, is fully accomplished in the use of the sewing machine.

The Madison Argus estimates the number of mortgages of farms to railroad companies in the state at 4,500, the average of the mortgages at $1,500, and the total amount $5,625,000—more it thinks, rather than less. Cases involving the validity of these mortgages have been argued before the supreme court, and are awaiting its decision. Of course a decision is looked for with the utmost interest, for nothing of equal importance has ever been before the court.

Some of the Catholic journals are loud in the praise of Mr. Grow, for his untiring perseverance in [illegible] the [illegible] of toll from the [illegible]. No man deserves it more.

The expenses of the bridge repairs of Milwaukee from 1852 to '59, were $33,632,74, and for tending the same $15,682 35.

In Manitowoc the Universalists are building a church to cost about $5,000, and the Congregationalists one to cost about $2,000.

Fast Traveling.—The Newspaper express train on the Hudson road the other morning ran seven miles in six minutes! between Albany and Castleton. This, if we are not mistaken, is the fastest time ever made in this country, being at the rate of *seventy miles an hour!*

The [illegible] fire at Kenosha was undoubtedly the work of an incendiary. A girl, watching with a sick parent, near the place where the fire originated, says she saw a man come from the spot where the fire was [illegible] shortly afterwards seen. Later, a pan [illegible] was discovered under the [illegible] belonging to Mr. Ran[illegible], which had evidently been placed there to keep the fire.

A Novelty in Fashion.—Among the novelties recently introduced in ladies' apparel, is a new article of suspenders. They [illegible] resemblance to those worn by gentlemen, except that they are made of delicate white elastic fabric, with frilled edge about one inch wide, and are attached to the skirt [illegible] in like manner.

A lady who had read of the extensive manufacture of odometers, to tell how far a carriage had been run, said she wished some Connecticut genius would invent an instrument to tell how far husbands had been in the evening when they "just stepped down to the post office," or "went out to attend a caucus."

The Chicago Tribune suggests that as [illegible] steamers have become pretty nearly dead property, at a trifling cost, compared with the value of the property, they be taken through to the Illinois and Mississippi rivers by means of the Chicago and O'Plain river.

The shanty of a rafting crew at Trappe river, some distance above Wausau, was lately robbed of a carpet sack containing $400 in gold. The robbery was committed by a young man who acted as cook, and the officers of justice are after him.

The county of La Pointe, the last to be heard from in our state, is reported to have given 12 majority for Sloan. This leaves Judge Dixon just eighty-six votes ahead in a poll of 120,000. Decidedly, a close fit.

A friend in Bremen has sent the editor of the Richmond Enquirer a bottle of wine said to be two hundred and twenty-eight years old. Suppose that it cost originally twenty cents, if it is ascertained that the bottle, calculating the interest and adding it annually, would now be worth $788,411,92.

A remarkable case occurred recently at Monroe, Mich., in which a Miss Martha Gale died after being without food (excepting two or three days, and then but very little and that was soon rejected) forty-two days. During that time she did not even take as much as a drink of cold water for days together. During her protracted illness there have been many and various conjectures as to the cause of her peculiar symptoms, but a post mortem examination revealed the ravages of that fearful disease—cancer in the stomach.

John A. Dix, of New York, who has been refused the French mission, has been offered the post of commissioner under the Paraguay treaty. Small sop for a distinguished man.

Pastime of the Cadiz Girls.—At Cadiz, Portugal, the chief amusement of the carnival consisted in the proceedings of numbers of young ladies standing on the balconies, each armed with a bag stuffed full like a pin-cushion and about the size of an egg plant. This was tied to a long colored cord, and the young ladies amused themselves by throwing the bag at the head of any male passer-by, knocking his hat off, if possible, and then pulling the bag in rapidly by the cord. As the streets are very narrow, it is almost impossible to run the gauntlet in safety. The dark eyes of the girls were flashing with fun; and rows of white teeth gleamed like pearls from the balconies, making one feel decidedly affectionate toward them, as they glared and giggled with their rollicking glee.

The Pope has appointed Gen. Lamoriciere Commander-in-Chief of the Roman army. Lamoriciere is a French exile—an Orleanist, and a bitter enemy of Louis Napoleon. Having risen to distinction in Algiers, he was appointed by Louis Phillipe Commander of the National Guard of Paris. In the revolution of 1848 he took an active part for the King, and led the troops against the barricades. When Louis Napoleon made his *coup d'etat*, in 1851, he imprisoned Lamoriciere, and finally banished him from the Empire. He desires nothing more ardently than a chance to use his *sword against* the "imperial usurper."

Life Insurance.—Those desiring this *safest* and *cheapest* protection for their families, can secure it in our Wisconsin company. It has already become, in reality, a state institution, having agents and patrons among the best business men in all the principal towns in the state. It is no longer a matter of doubt that life insurance can be *conducted* as well in Wisconsin as in Connecticut or any other eastern state.

Thus while duty demands that men should insure their lives, it also demands that they should keep their money for investment at home. Confident that our success has been more than equal to that of the most "unprecedented," we would cordially invite all our citizens to call at the office, south-west corner of Main and Wisconsin streets, and examine for themselves.

Non-Explosive Burning Fluid

USED WITH SAFETY & ECONOMY.

The Best in the Market.

Palmer's Drug and Tea Store.

WE have, for several years past dealt largely in BURNING FLUID, and have always, thus far, kept fully *up to the times*, in any improvements made in its manufacture. Nearly a year ago, in an appeal in favor of its more general use, based upon the fact that the raw material from which it is made, is mainly the product of our own farms, we publicly announced that there was, at the temperature at which it is generally used, "no explosive power whatever in Burning Fluid, *as now made by those who understand the business in which they are engaged.* That injury from its use was either the result of gross carelessness, or of undue alarm caused by a belief in its explosive power," &c. Since then we have manufactured and sold thousand of gallons to consumers in this city and vicinity, and if our assumption was an erroneous one, it would undoubtedly have been discovered ere this.

We are prepared to submit our Fluid to any test the public may call for, satisfied that, with ordinary care, *no safer, better or more agreeable light can be produced.* As we are indebted to no traveling "Prof. Green—O" *for the* high state of perfection attained by us in its manufacture, we are, as usual, prepared to offer our Fluid at the *LOWEST MARKET FIGURES*, and to guarantee entire satisfaction in its use, or the money refunded. City Improvements.—Among the improvements in our city is that of Messrs. Jackman & Smith; they have put down a good and substantial side-walk in front of their mill property on the south side of Milwaukee street, extending from the corner of Exchange Block to River street. It will add much to the comfort of pedestrians. Now, if the aldermen in the first and fourth wards will put down a walk from Dr. Mitchell's corner to the railroad track, we shall have a first-rate side-walk from the depot to all the business portions of the city. What say you Mr. Aldermen?

☞ Mr. James, the clerk of the board of supervisors, has received the assessment law in pamphlet form, and they are ready for delivery to assessors.

Base Ball.—The Janesville Base Ball Club will meet on their play-ground to-morrow afternoon, at 4 o'clock.

Mr. Editor:—I suppose most of your readers have seen the notice of a concert to be given by Mr. D. D. Wilson, (which was published a day or so ago,) on Tuesday evening next, the 1st inst. As I have had the privilege of attending a rehearsal, I can well say to all who would wish to hear a good concert, and can fully appreciate good music, ought now to avail themselves of this opportunity.

A CONSTANT READER.

As many of our citizens have attended some of Mr. W's concerts, they can judge fully of his musical talent, and can expect a good evening's entertainment. d2d*

ALL SORTS OF PARAGRAPHS.

Every young lady is to become "Bachelor of arts," at the Elmira Female College, who, on graduating, is fully accomplished in the use of the sewing machine.

The Madison Argus estimates the number of mortgages of farms to railroad companies in the state at 4,500, the average of the mortgages at $1,200, and the total amount $5,625,000—more it thinks, rather than less. Cases involving the validity of these mortgages have been argued before the supreme court, and are awaiting its decision. Of course a decision is looked for with the utmost interest, for nothing of equal importance has ever been before the court.

Some of the Catholic journals are loud in the praise of Mr. Grow, for his untiring perseverance in defending the son of toil from the land monopolist. No man deserves it more.

The expenses of the bridge repairs of Milwaukee from 1852 to '59, were $53,682,-76, and for tending the same $15, 682 39.

In Monroe the Universalists are building a church to cost about $5,000, and the Congregationalists one to cost about $2,000.

Lightning.—The Newspaper express train on the Hudson road the other morning ran seven miles in six minutes! between Albany and Carleton. This, if we are not mistaken, is the fastest time ever made in this country, being at the rate of *seventy miles an hour!*

The late great fire at Kenosha was undoubtedly the work of an incendiary. A girl, watching with a sick parent, near the place where the fire originated, says she saw a man run from the spot where the fire was immediately afterwards seen. Later, a pan filled with combustibles was discovered under the sill of a barn belonging to Mr. Ranals, which had evidently been placed there to help the fire.

A Novelty in Fashion.—Among the novelties recently introduced in ladies' apparel, is a new article of suspenders. They bear resemblance to those worn by gentlemen, except that they are made of delicate, white, elastic fabric, with trilled edge about one inch wide, and are attached to the skirt by buttons in like manner.

A lady who had read of the extensive manufacture of odometers, to tell how far a carriage had been run, said she wished some Connecticut genius would invent an instrument to tell how far husbands had been in the evening when they "just stepped down to the post office," or "went out to attend a caucus."

The Chicago Tribune suggests that as lake steamers have become pretty nearly dead property, at a trifling cost, compared with the value of the property, they be taken through to the Illinois and Mississippi river by means of the Chicago and O'Plain rivers.

The shanty of a rafting crew at Trappe river, somewhere above Wausau, was lately robbed of carpet sack containing $400 in gold. The robbery was committed by a young man who acted as cook, and the officers of justice are after him.

The county of La Pointe, the last to be heard from in our state, is reported to have given 12 majority for Sloan. This leaves Judge Dixon just eighty-six votes ahead in a poll of 120,000. Decidedly, a close fit.

A friend in Bremen has sent the editor of the Richmond Enquirer a bottle of wine said to be two hundred and twenty-eight years old. Suppose that it cost originally twenty cents, it is ascertained that the bottle, calculating the interest and adding it annually, would now be worth $783,411,92.

A remarkable case occurred recently at Monroe, Mich., in which a Miss Martha Gale died after being without food (excepting two or three days, and then but very little and that was soon rejected) forty-two days. During that time she did not even take as much as a drink of cold water for days together. During her protracted illness there have been many and various conjectures as to the cause of her peculiar symptoms, but a post mortem examination revealed the ravages of that fearful disease—cancer in the stomach.

John A. Dix, of New York, who has been refused the French mission, has been offered the post of commissioner under the Paraguay treaty. Small sop for a distinguished man.

Pastime of the Cadiz Girls.—At Cadiz, Portugal, the chief amusement of the carnival consisted in the proceedings of numbers of young ladies standing on the balconies, each armed with a bag stuffed full like a pin-cushion and about the size of an egg plant. This was tied to a long colored cord, and the young ladies amused themselves by throwing the bag at the head of any male passer-by, knocking his hat off, if possible, and then pulling the bag in rapidly by the cord. As the streets are very narrow, it is almost impossible to run the gauntlet in safety. The dark eyes of the girls were flashing with fun, and rows of white teeth gleamed like pearls from the balconies, making one feel decidedly affectionate toward them, as they glared and giggled with their rollicking glee.

The Pope has appointed Gen. Lamoriciere Commander-in-Chief of the Roman army. Lamoriciere is a French exile—an Orleanist, and a bitter enemy of Louis Napoleon. Having risen to distinction in Algiers, he was appointed by Louis Phillipe Commander of the National Guard of Paris. In the revolution of 1848 he took an active part for the King, and led the troops against the barricades. When Louis Napoleon made his *coup d'etat*, in 1851, he imprisoned Lamoriciere, and finally banished him from the Empire. He desires nothing more ardently than a chance to use his sword against the "imperial usurper."

Life Insurance.—Those desiring this *safest* and *cheapest* protection for their families, can secure it in our Wisconsin company. It has already become, in reality, a state institution, having agents and patrons among the best business men in all the principal towns in the state. It is no longer a matter of doubt that life insurance can be conducted as well in Wisconsin as in Connecticut or any other eastern state.

Thus while duty demands that men should insure their lives, it also demands that they should keep their money for investment at home. Confident that our success has been more than equal to that of the most "unprecedented," we would cordially invite all our citizens to call at the office, south-west corner of Main and Wisconsin streets, and examine for themselves.

S. S. DAGGETT, Pres't.
A. W. Kellogg, Sec'y.

☞ Messrs. Pixley & Harlow, produce dealers, and Capt. Geo. S. Dodge will receive applications for insurance in this home company, and will also be happy to give information as to the condition thereof, to any one desirous of being informed, in Janesville. apr13dawly

Non-Explosive Burning Fluid

USED WITH SAFETY & ECONOMY.

The Best in the Market.

Palmer's Drug and Tea Store.

WE have, for several years past dealt largely in BURNING FLUID, and have always, thus far, kept fully *up to the times*, in any improvements made in its manufacture. Nearly a year ago, in an appeal in favor of its more general use, based upon the fact that the raw material from which it is made, is mainly the product of our own farms, we publicly announced that there was, at the temperature at which it is generally used, "no explosive power whatever in Burning Fluid, *as now made by those who understand the business in which they are engaged.* That injury from its use was either the result of gross carelessness, or of undue alarm caused by a belief in its explosive power," &c. Since then we have manufactured and sold thousand of gallons to consumers in this city and vicinity, and if our assumption was an erroneous one, it would undoubtedly have been discovered ere this.

We are prepared to submit our Fluid to any test the public may call for, satisfied that, with ordinary care, *no safer, better or more agreeable light can be produced.* As we are indebted to no traveling "Prof. Green—Oi" for the high state of perfection attained by us in its manufacture, we are, as usual, prepared to offer our Fluid at the *LOWEST MARKET FIGURES*, and to guarantee entire satisfaction in its use, or the money refunded.
